THE URBAN DISTRICT COUNCIL OF TRAWDEN.

HEALTH COMMITTEE.

YEAR 1954.

Councillor W. Barker. (Chairman).

Councillors G. Bannister. J. A. Lambert.

Mrs. I. G. Banks. W. Spencer.

W. Banks. W. H. Stevenson.

T. C. Emmott. E. Tidswell.

R. Hoskin. J. W. Tomlinson.

E. Keighley.

Clerk of the Council. - W. Shaw.

Sanitary Inspector. - D. A. Norman.

Gentlemen,

I have the honour to submit for your consideration the Annual Report on the health of Trawden for the year 1954.

The population of Trawden is too small to be statistically significant from a Public Health point of view. However, during the past year, only 8 cases of infectious fevers, other than tuberculosis, were notified.

The Maternal Mortality was Nil, as was the Infantile Mortality Rate.

The most acute problem before this Authority is that of Housing. It is difficult to clear up all the sub-standard property with so little money. Perhaps the Ministry may aid authorities with such a low penny rate.

I record my thanks to the Committee and Staff for their continued assistance and co-operation.

I have the honour to be,

Gentlemen,

Your obedient Servant,

R. E. ROBINSON.

Medical Officer of Health.

GENERAL.

The number of cases of infectious diseases notified during the year is Eight, Eight less than for 1953, viz:-

8 Cases of Whooping Cough.

This year the Birth-rate stands at 14.5 compared with 12.6 last year, which is an increase of 1.9 per 1,000 of the estimated population.

The Death-rate this year stands at 15.4 compared with 12.9 last year, and this is an increase of 2.7 per 1,000 of the estimated population.

X 1954 adjusted death-rate (comparability factor, 0.87)
= 13.4 per 1,000.

STATISTICS AND SOCIAL CONDITIONS OF THE AREA.

Area (in acres)	6,815.
Population - Census 1951...	2,114.
